WORK EXPERIENCE

React.js • Javascript • HTML • CSS/Sass • jQuery • Ruby • Node.js • Mongoose • Express • Flexbox • RESTful API • Git • Python • JSP • DNS • Photoshop

WORK EXPERIENCE

Tech Support Specialist, Tier III — **Edlio**, Austin, TX

March 2017 - Present

In this role, I work to aid the company's clients, mainly schools and school districts, to get the most out of Edlio's CMS and their websites. Typically this involves making changes on their homepage using JSP API calls and Javascript for functional updates, and HTML and Sass for cosmetic changes. Additionally, I would add DNS records as well as walk them through the CMS's modules.

This was a very front facing role, so I am in constant contact with customers through phone calls, emails, and support tickets. I have also participated in webinars explaining different aspects of the CMS to clients and have written a technical article on the company's help center.

PROJECTS

Tempvest

Tempvest gives you a layout of clothing options for what you'll need when weather conditions change or the temperature differs a significant amount.

Kollaboscope

Kollaboscope aims to facilitate building playlists collaboratively in a public setting; it's the jukebox for the 21st century. Users go to a 'room', designated by the URL path, and add songs from Youtube. These songs are then played back in the order added.

Nommad

You can use Nommad to find food trucks near you as fast as possible. Leverages the Yelp API to only return food trucks, easing your search by eliminating the need to enter in the extra parameters in other search sites.

EDUCATION

Web Development Fellow — **General Assembly**, Austin, Tx

September 2017 - December 2017

I attended this full-time course to change my life. This 9-5 class schedule for 3 months was a grind, but it was also a rewarding and enriching experience. We went over topics ranging from front languages, version control management, frameworks, object-oriented programming, setting up api calls, and more.

Skills learned: React.js, Node.js, Mongoose, Git, jQuery, Group Teamwork

B.A. in Economics — **UNIVERSITY OF MISSOURI**, Columbia

2009 - 2013

Minor in French; Certificate of Multicultural Studies; College of Arts & Science Dean's List 2012 – 2013
