EXPERIENCE

General Assembly, Austin, Tx

September 2017 - December 2017

I attended this full-time course to change my life. This 9-5 class schedule for 3 months was a grind, but it was also a rewarding and enriching experience. We went over topics ranging starting from front languages, version control management, frameworks, object-oriented programming, setting up api calls, and more. kills learned: react.js, node.js, mongoose, git, jquery, group teamwork

PROJECTS

Tempvest — *temp-vest.firebaseapp.com*

Live in an area where the weather vastly varies throughout the day and want to know how you should dress accordingly? Tempvest gives you a layout of clothing options for what you'll need when weather conditions change or the temperature differs a significant amount.

Kollaboscope

Kollaboscope aims to facilliate building playlist collaboratively in a public setting; it's the jukebox for the 21st century. Users go to a 'room', designated from the URL path, and add songs from Youtube. These songs are then played back in order added.

Nommad — *nommad-app.firebaseapp.com*

You can use Nommad to find food trucks near you as fast as possible. The axios call to Yelp filters to only return food trucks, easing your search by eliminating the need to enter in the extra parameters in other search sites.

PREVIOUS WORK EXPERIENCE

THE BOON GROUP, Austin, TX — *Account Specialist*

October 2016 - September 2017

In this role, i allocated medical coverage to employees according to their hours worked to keep my clients legally compliant. Using excel, I learned to manage these benefits for thousands of employees every month. skills learned: advanced excel formulas, v-lookup, pivot tables, jira, long-term project management

EDUCATION

UNIVERSITY OF MISSOURI, Columbia — *B.A. in Economics*

2009 - 2013

Minor in French; Certificate of Multicultural Studies; College of Arts & Science Dean's List 2012 – 2013
